WORK EXPERIENCE

Frontend Developer Intern

PSup

WFH

Jul – Sep 2023

- Integrated the front-end with the APIs, and added reusable code for future use, using **Next.js**
- Contributed to a fast-paced team, participating in daily stand-ups.

Full Stack Developer

Kisaan24 - Freelance Work

Remote

Mar – Jun 2024

- Developed an e-commerce app for seamless transactions, user authentication, and database management.
- Engineered a secure payment processing module by integrating the Razorpay API, enabling secure transactions for users.

Software Developer

Brainstreamliner - Freelance Work

Remote

Aug – Dec 2024

- Developed a client's primary sales platform for online courses using React.js, creating 10+ reusable components.
- Ensured mobile responsiveness and fast performance across devices.

Frontend Developer Intern

Lawayaltech

Remote

Feb – May 2025

- Built and maintained reusable, modular React.js components across multiple pages.
- Enhanced team efficiency by regularly participating in code reviews and managing branching and merging strategies.

EDUCATION

Bachelor of Engineering in Computer Science

Chandigarh University, Punjab, IND

2021 - 2025

Senior Secondary School

Dr. M.K.K. Arya Model School, Panipat, Haryana

2019-2021

SKILLS

Languages : JavaScript, TypeScript, HTML/CSS, C++, OOP and DSA

Frameworks/Libraries : React.js, Node.js, SQL Server

Tools : GIT, Github, Visual Studio Code, Google Cloud Platform

PROJECTS

House-Renting

A web app to get/give house on rent

Github

06/2024

- Built a scalable and efficient back-end using Node.js and Express.js, handling user authentication, property management, and rental transactions.
- Ensured responsive design for optimal user experience across various devices and screen sizes.

Restaurant Management System

A web app to book table and order in a restaurant

Github

05/2023

- Designed and implemented the front-end using React.js, providing an intuitive user interface for table booking, menu browsing, and online ordering
- Ensured **responsive design** for seamless user experience across different devices and screen sizes.
- Deployed the application on cloud platforms (e.g., AWS, Heroku) for scalability and accessibility.

Simon Game

Recall and replicate sequences of colors and sounds.

Github

12/2022

- Designed and implemented the game interface using HTML5, CSS3, and JavaScript, ensuring a responsive and engaging user experience.
- Created game logic to generate random sequences and track user input, providing feedback on responses.

HACKATHONS

Google HashCode

Ideathon-2024

Ideation Winners Qualified **April' 22**

5th rank **Jan '24**
